

NVAHU Air Handling Unit

NVDB Duct Type Dehumidifier

It is manufactured in three different capacities in accordance with the suspended ceiling . Moreover, galvanized sheets which are specially protected against corrosion are used . With highly efficient in dehumidifiers, Environmentally friendly R-410a gas is used as refrigerant.

| Model | NVDB 10 | NVDB 15 | NVDB 20 |
|-------------------------|----------|----------|----------|
| Moisture Removal (kg/h) | 7 | 10 | 13 |
| Air Flow (m3/h) | 1000 | 1500 | 2000 |
| Compressor power (hp) | 2 | 2.5 | 3 |
| Power (kW) | 1.8 | 2.3 | 2.8 |
| Supplying voltage (V) | 220-230V | 220-230V | 220-230V |
| Current (A) | 3.6 | 4.6 | 5.6 |
